BOX TRAILER

THE COMPANY

As a specialist for individual niche products and an expert in the field of custom trailer construction, we at UNSINN Fahrzeugtechnik GmbH have been offering suitable solutions even for the most demanding tasks since 1958. We are an innovative manufacturer of car trailers, truck trailers and roll-off tippers of unique quality and guarantee our customers stable value with best quality "Made in Germany". Thanks to our in-house research, development and construction, we do not only stand for the fulfilment of individual customer wishes but also set benchmarks in terms of workmanship and durability. The high level of customer satisfaction and numerous official awards serve as an incentive and mandate for the continual further development of our trailers. UNSINN trailers feature impressive stability and comfortable handling characteristics and offer you maximum functionality and ease of maintenance. More and more satisfied customers both at home and abroad have come to appreciate how much it pays off to have a "real Unsinn" hitched up. Come for a visit and see for yourself!

Regards,

Your Gunnar Bregler and your Rosa & Josef Unsinn

WHAT MAKES US DIFFERENT? THE QUALITY

The UNSINN box trailer is a real all-rounder for house and garden work. A modern design, high-quality materials as well as a great selection of suitable equipment make this trailer particularly versatile. The self-supporting frame provides highest stability and ensures driving comfort.

Low-loader

The wheels are placed beside the loading area. This ensures a low loading height and centre of gravity for a better road position.

Load securing

The integrated and flexible lashing system ensures easy and comfortable load securing. Lashing eyes can be easily moved in the side wall over the entire length and can also be retrofitted at any time.

Electrics

High-quality lamps with 13-pole connector and cable conduit in the light carrier safely installed.

Equipment

A wide range of equipments for easy retrofitting and various purposes.

Stability

Crossbeams underneath the loading area increase the stability of the entire construction.

Side walls

Made of anodised aluminium hollow profile in appealing design. Side walls in the front and the back (optionally) removeable with sunken locks for longer loading goods.

Drawbar

Consisting of galvanised closed square pipe. The drawbar has an ideal length for particularly smooth driving characteristics.

Base plate

Loading area made of multi-glued screen print plate circumferentially edged in the side walls for higher stability and longer durability.

In series

Automatically readjusting brakes for safe driving characteristics and a shorter braking distance. All box trailers available with 100 km/h admission. Suitable support wheel for braked performance.

BOX TRAILER TYPE K

The box trailer Type K is the ideal car trailer for private use. Whether it is for hobby gardeners, hobby sportsmen, campers or bike trips, thanks to the wide range of equipments the practical trailer easily becomes your customised product.

Standard Basic Equipment

Your Benefits

Integrated and flexible lashing system

Frame construction with edged base plate

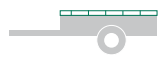

Automatically readjusting brake

- Torsion-resistant aluminium chassis
- 100-km/h performance
- Four sunken and removable lashing eyes mounted within the side walls
- Aluminium side wall rearly removable with sunken locks
- Multi-glued screen print plate (15 mm)
- 13-pol. lighting and reverse light
- Drawbar support wheel 48 mm for uniaxle and automatic support wheel for tandem

Standard Equipment

	Tarpaulin structure incl. high tarpaulin		Flat tarpaulin/finely woven UNSINN professional net
	Light cargo superstructure		Net and tarpaulin bar
	Aluminium top with gas spring lifting aid		Pipe railing
	H-frame two-rowed 650 mm		Aluminium side wall superstructure
			foldable front wall

„Always in use“

My Unsinn trailer is of very high quality and always in use ever since I bought it. Whether it is for getting construction material for the house or garden or for the annual acquisition of firewood, it is always a useful companion.

Thank you again for the great support and I wish you continued good business.

All the best
from Falkenbach im Erzgebirge
Matthias

„Customised for my requirements“

I would like to thank you again for the constructive talks during the configuration of my trailer. This way I ended up with a trailer that perfectly meets my requirements. It is not cheap, but it is worth its price. It has already served its purpose various times and it will continue to do so for many more years.

Rainer

„Cannot be missing anymore!“

The UNSINN box trailer with its raised side walls and anti-tipper supports cannot be missing a single day due to the thoughtful functionality and the solid and robust quality! We got comprehensive, competent and very friendly advice and the trailer was delivered on time. On short notice we got an appointment for the installation of the additionally ordered supports, we were quickly served and a defective brake light was fairly replaced free of charge! Buy a trailer somewhere else? – UNSINN!!

Kind regards
Wilfried

Focus on your success, we will deliver you time-saving, efficient and durable trailers in best workmanship quality according to your wishes.

At UNSINN, quality means that our customers may expect perfect results. Every trailer is a first-class product thanks to our careful and precise work. The quality of all the individual components used – sourced from carefully selected suppliers – allows UNSINN to manufacture top-quality trailers which you will enjoy working with for a long time. Rounded off by the best personal service from motivated employees, we provide excellent support right from the start. Our high company standard has also been officially confirmed. UNSINN has been awarded the Bavarian State Prize several times and included in „Bavaria's Best 50“ twice. We have also been awarded the Anton-Jaumann Prize, category Special Trade.

For all those customers who have not been able to find the right product in our comprehensive range, we have our creative specialists on hand to help fulfil their requirements. There are (almost) no limits to flexibility to create a unique product. We will be happy to design and manufacture your one-off customised trailer for you.

You get your very own personal trailer that marches to its own – your – tune. We are happy to face any challenge and fulfil the sometimes quite exotic wishes of our customers.

That's what makes us stand out from the rest and the reason why there is increasing international demand for our work.
